ABOUT ME

I am a versatile software engineer specializing in data analysis, full-stack development, and artificial intelligence. With a strong foundation in computer science, I excel in extracting valuable insights from data, crafting end-to-end solutions, and implementing AI-driven applications. My expertise spans various programming languages, frameworks, and databases, enabling me to contribute effectively to diverse projects. I am passionate about pushing the boundaries of technology and thrive in dynamic, collaborative environments where I can leverage my skills to drive innovation and deliver impactful solutions.
